LIFESTYLE

HOME LIFTS

We collaborate with Italian brands to serve you THE BEST!

At GEM Elevator we strive to bring world class product to the doorstep of our esteem clientele. Therefore we have collaborated with renowned brands from Italy. We import major driving components from our Italian partners. These technically advanced, internationally certified and worldwide used components ensure utmost safety and ultimate performance to the end user. Our technology partners follow very lean production process to ensure continuous improvement in their products. They achieve ultimate excellence through regular training, waste reduction, optimization of process and attention to details. We believe our Premium Home Elevators are standout product in the market, as a result of stringent safety and quality processes followed by our suppliers.

VEGA S.R.L., Italy - Established in the year 2004, is a leading manufacturer of control panels for elevators. Having its presence across the world, VEGA supplies most advanced control panels with many inbuilt features. Their technical knowledge and passion for design attracted GEM Elevator to be associated with VEGA. Their products are manufactured using various material and refined finishes which gives sophisticated visual experience. This is a result of great inspirational spirit of VEGA designers. VEGA is TUV ISO 9001:2008 quality certified company, which covers entire production process and product quality to meet with European Standards. We offer these Italian designs and precisely manufactured components in our premium home elevators.

OMARLIFT

OMAR Lift S.R.L., Italy - Carrying strong legacy of Wittur Lifts Group, OMAR Lift S.R.L entered into elevator component manufacturing business in 2013. Today company exports its products to more than 50 countries worldwide. Company believes in their daily work and ability to innovate. OMAR Lift has succeeded in carving its market share due to its desire to create excellent quality products and deliver timely technical support. OMAR Lift is specialized in manufacturing Hydraulic power packs, cylinder and other elevator components. These components are attested for quality, performance and safety by international certification agencies. GEM Elevator supplies premium home elevators equipped with world class Hydraulic system fully imported from OMAR Lift, Italy. It offers smooth and noiseless ride experience for your Bungalow, Villa, Duplex apartments, small offices and showrooms.
